WITH azteclive 

An assurance of excellence in
business meetings and events
Service. Safety. Health. Responsibility.

SIT BACK, WE'LL TAKE CARE OF EVERYTHING

We believe we have introduced the most comprehensive virtual studio package available in a venue in the UK.

LOCATION | Centrally located along the Victoria Embankment overlooking the Thames, our innovative, versatile and high tech, easy to reach venue is the perfect place to gather your guests in a comfortable and welcoming environment.

INFRASTRUCTURE – super fast and reliable internet allows us to seamlessly stream your show in high definition. Spacious rooms make for an easy, secure customer journey from room to room and our easy to reach facilities. The studio has excellent acoustics and lighting perfect for broadcast.

VERSATILE – the studio is customisable and the Aztec Live design team will help you create your perfect brand experience. In addition to the studio, we can provide presenter green rooms, catering areas, rest areas and meeting lounges. And once the show is over, why not relax with a glass of wine on the balcony with stunning views across London, subject to the latest government restrictions, of course.

SAFE & SECURE – it's our number one priority. Easy to read signage and clear directions ensures your presenters and guests can effortlessly navigate to each room safely. 58VE is proud to have achieved 'We're Good to Go' and the MIA's 'Aim Secure' accreditation in reflection of the measures to ensure everyone's safety. Aztec has produced its own COVID Secure AV guidance, available upon request. It includes things like providing microphones and in-ear monitors are cleaned and quarantined for 72 hours before handed to each presenter in a sealed bag.

TECHNICAL – Aztec Live have streamed countless shows adding production value to your stream bringing to life and giving it TV broadcast quality keeping your online guests glued to their screens. We understand that every show is different. And we will work with you to establish your needs from studio branding and set ups to the best platform solution for your requirements whilst keeping an eye on budgets. It's all part of the service.

CATERING – working exclusively with our in-house caterers, CH&Co, we can offer a variety of food and refreshments to keep your presenters and guests going throughout the day. In a world where what we consume is becoming ever faster and more disposable, they're proud to take a more thoughtful, mindful approach to the food experiences they source, prepare and present whilst being able to adhere to social distancing measures.

ADDITIONAL SERVICES – we can also supply experienced presentation coaches to help your hosts and presenters look and sound their best on the day. And why not treat your presenters to a makeover before they go on camera with a TV experienced hair and make up artist. And as well as studio comfort monitors, we can also supply on-camera teleprompts with professional script operators and editing services.

58VE
